OUR VISION, MISSION AND CORE VALUES

Our Vision

To be Uganda's most trusted engineering partner recognised for technical precision, professional integrity, and consistent delivery across every sector we serve and beyond.

Our Mission

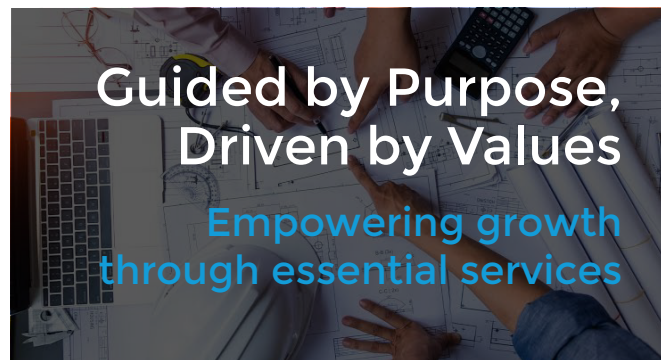

To provide reliable, high-quality engineering solutions that help businesses, institutions, and communities build, connect, and operate with confidence. We take every project seriously regardless of size.

Core Values

- Excellence in service delivery
- Integrity and professionalism
- Innovation and continuous improvement
- Safety and environmental responsibility
- Teamwork and collaboration

Our Services

We deliver comprehensive engineering and technology solutions, covering civil, electrical, and mechanical engineering, as well as networking and structured data cabling services. Our solutions support reliable infrastructure, efficient operations, connectivity, and sustainable development for businesses and organizations.

01 Civil Engineering

Provision of reliable civil engineering services for construction, infrastructure development, and site works, with a focus on quality, safety, and durability.

Scope of works

- Tiling (floor and wall finishes).
- Roofing and ceiling installations.
- Painting and decorative finishes.
- Interior fit-out works (offices, banking halls, retail spaces).
- Renovation and refurbishment works.
- Masonry, plastering, and screeding.
- External works (paving, drainage systems, road works).
- Plumbing and sanitary installations.
- Facility maintenance and repair services.
- Building construction (residential, commercial, and institutional).

Engineering and Technology Services

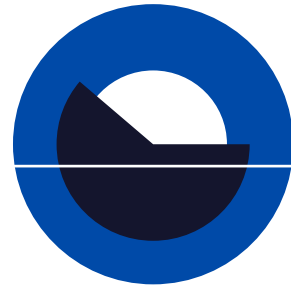

Building Infrastructure,
Powering Progress,
Connecting the Future

Our Services

02 Mechanical Engineering

Provision of mechanical engineering, installation, repair, and maintenance services, ensuring efficient and reliable equipment performance.

Scope of services

- Mechanical ventilation systems
- Equipment maintenance and repairs
- HVAC system design and installation
- Air conditioning servicing and maintenance
- Generator supply, installation, and commissioning
- Generator servicing and maintenance
- Supply and installation of air conditioning systems (split, cassette, ducted units)

Our Services

03 Electrical Engineering

Providing professional electrical engineering services, including electrical installations, maintenance, repairs, and power system solutions to ensure safe, reliable, and efficient operations.

Scope of services

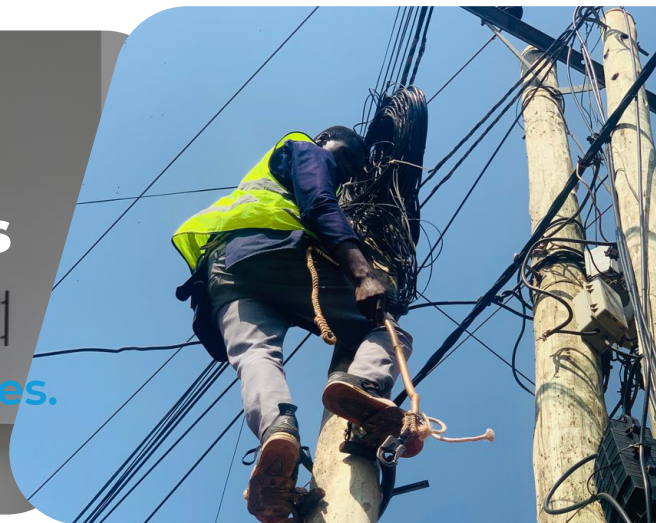

- Electrical installations for buildings
- Power distribution systems
- Wiring and rewiring works
- Installation of lighting systems
- Generator installation and integration
- Solar power system installation
- Electrical maintenance and troubleshooting
- UPS and backup power systems

We provide professional electrical engineering solutions, including electrical installations, power systems, maintenance, and repairs.

These services ensure safe, reliable, and efficient electrical systems for businesses and organizations.

Professional Electrical Services

Standard, reliable, effective & efficient services.

Our Services

04 Networking & Data Systems

Design, installation, and maintenance of networking and data cabling systems for reliable connectivity and communication.

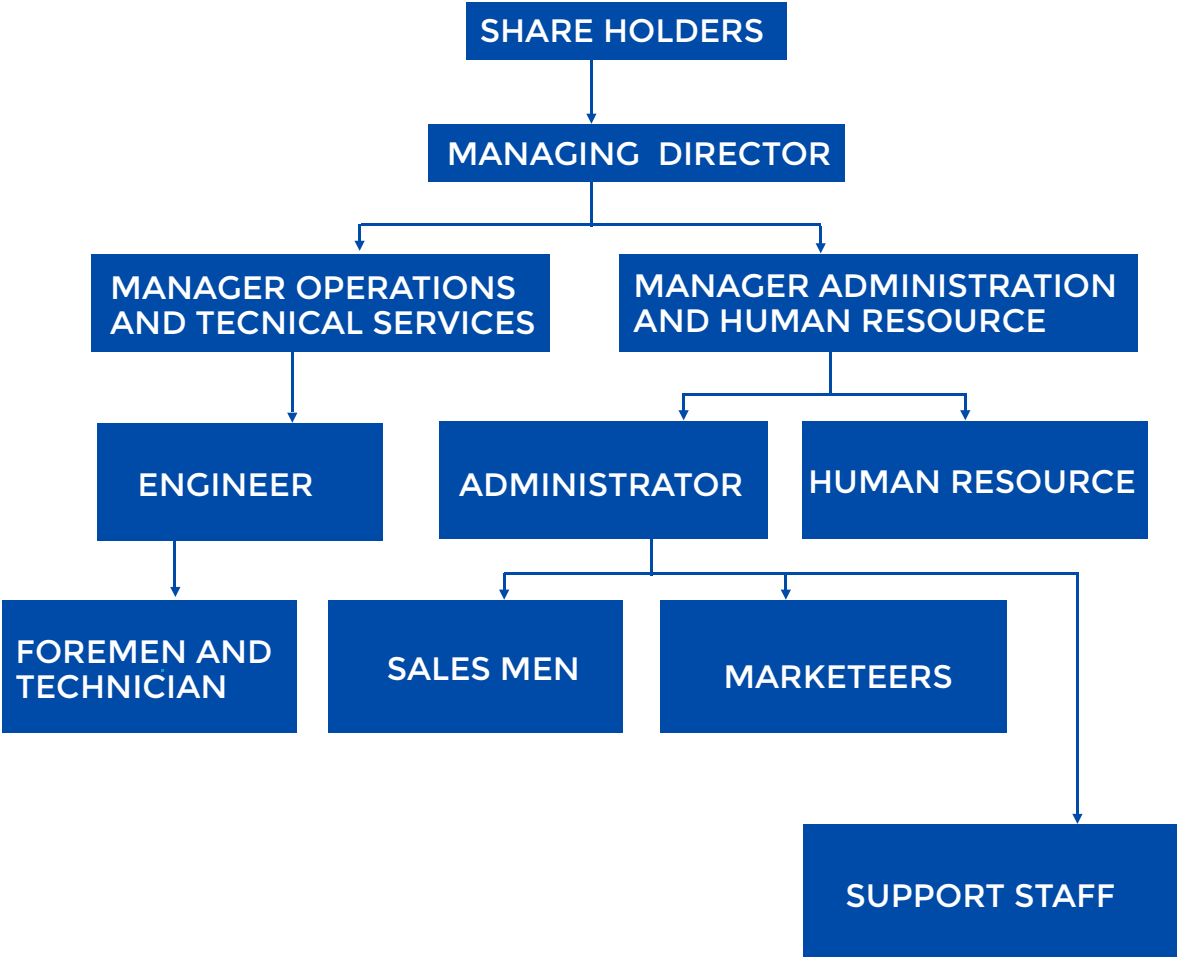

Scope of services

- Structured cabling systems (LAN/WAN)
- Data and voice network installation
- Server room setup and configuration
- Fiber optic installation and termination
- CCTV and security system installation
- Access control systems
- IT equipment installation and support
- Network maintenance and troubleshooting

“ We stand out through technical expertise, reliable connectivity, quality installations, and efficient service delivery that provides secure and dependable networking and data systems.

Our Clients

- Yerya SACCO
- Yerya Church
- Munyonyo Residence
- Lusajja Residence.
- PSFU (Private Sector Foundation Uganda)
- Uganda Broadcasting Cooperation (UBC)
- Mbarara University of Science & Technology
- Banks (Centenary, KCB Bank)
- Mbarara Regional Referral Hosp
- ST. Francis Chapel MUK

Competitive advantage:

- Multidisciplinary engineering expertise
- Client-focused service delivery
- Ability to deliver turnkey projects
- Strong commitment to quality & timelines
- Skilled and experienced workforce
- Proven experience in construction and maintenance works

Our Approach:

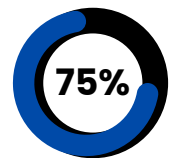

- Detailed project planning and needs assessment
- Use of qualified technical personnel
- Application of modern tools and technologies
- Strict quality control and assurance procedures
- Timely project delivery
- Continuous client engagement and feedback

Our Target Clients:

- Financial institutions (banks, ATMs, branches)
- Corporate offices
- Government institutions
- Schools and hospitals
- Commercial and residential developers, and many more...

Health, Safety & Environment:

- Compliance with occupational health and safety standards.
- Use of protective equipment on all sites.
- Safe working procedures and risk assessments
- Environmental protection and sustainability practices

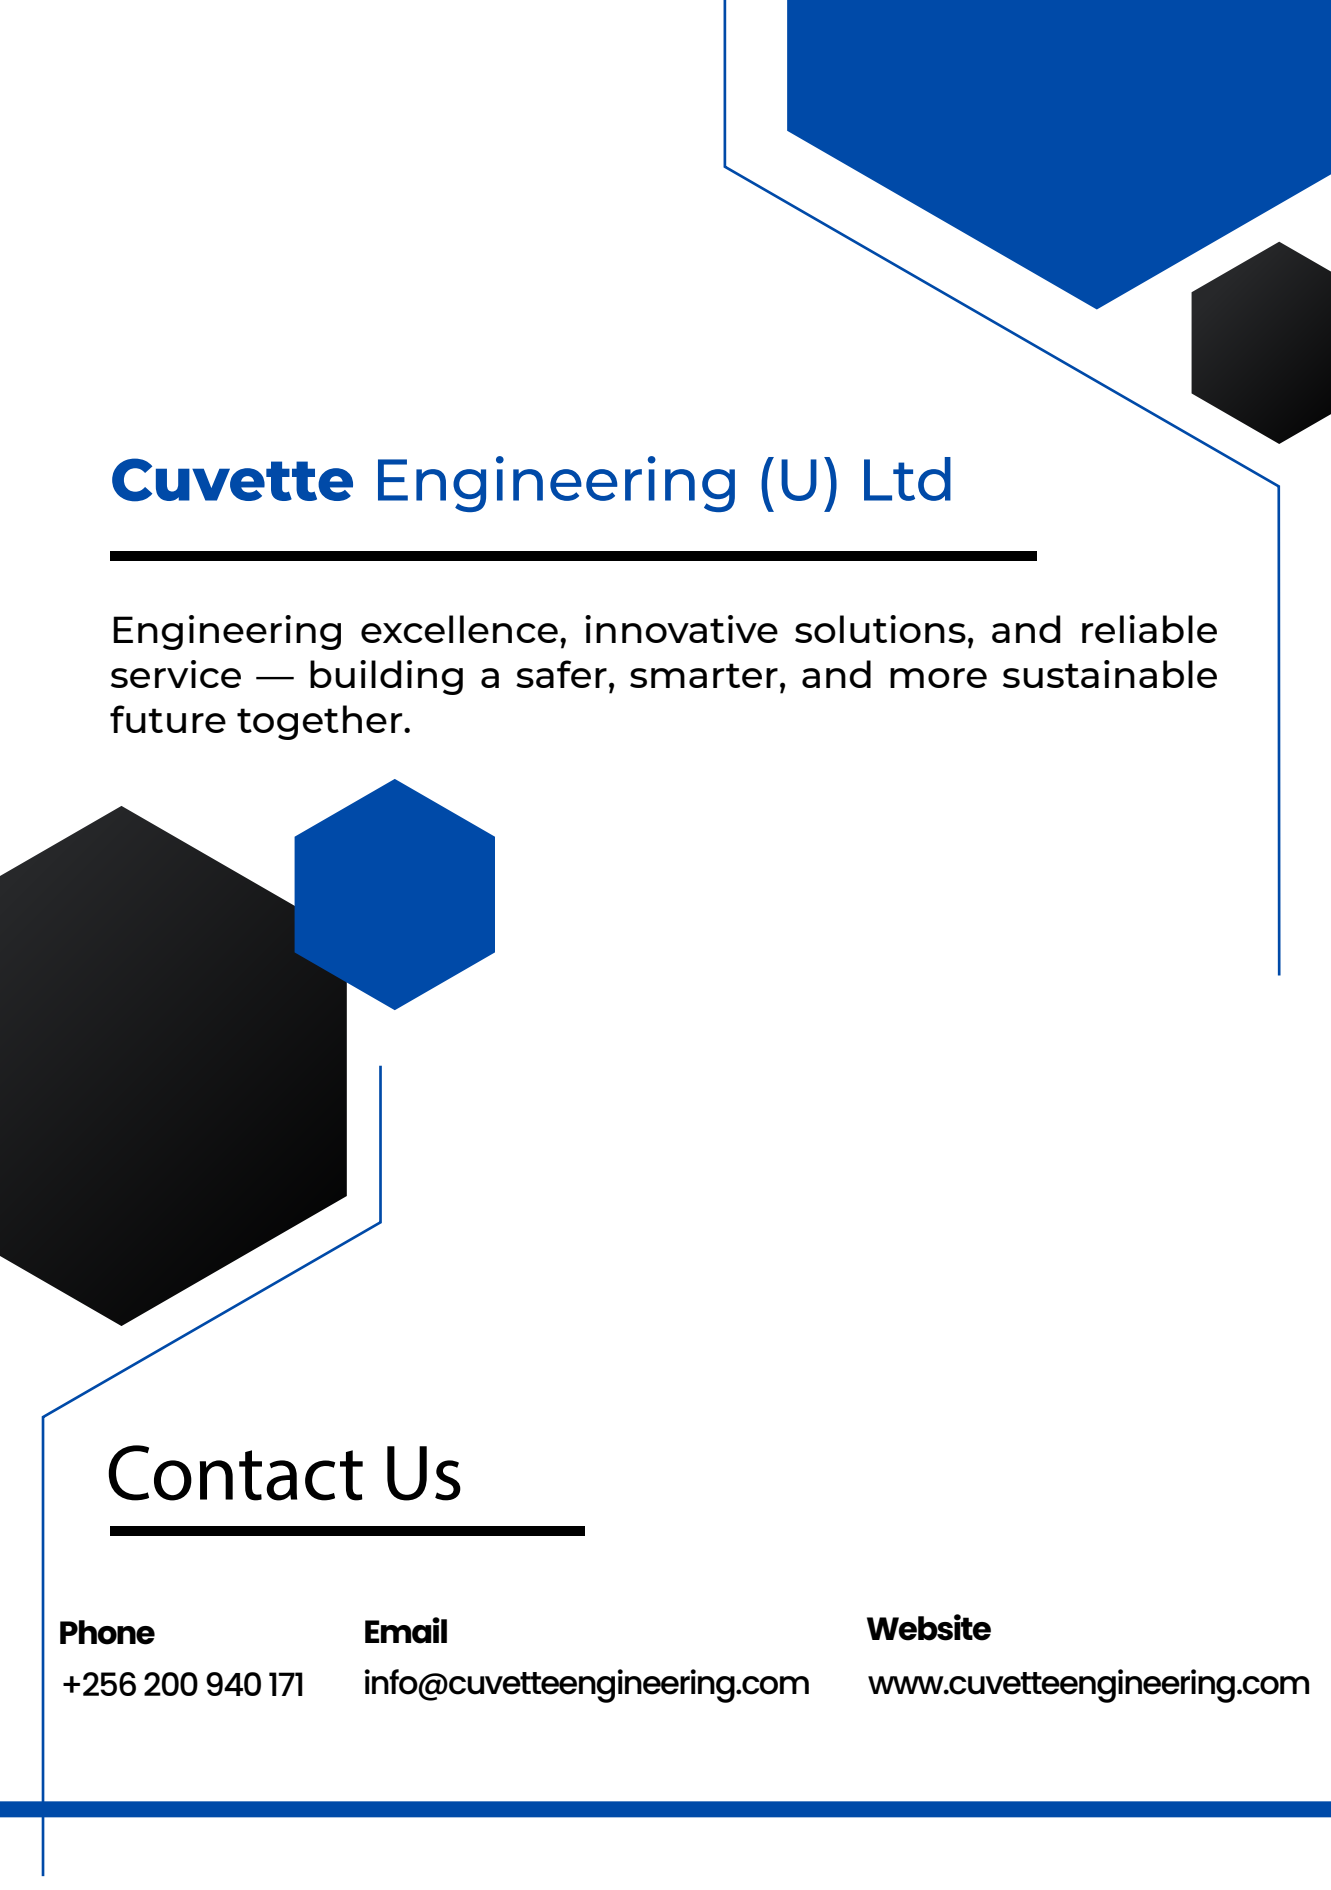

75% customer retention rate thus reflecting strong trust, consistent service quality, and long-term client satisfaction across all services.
